

Survival Format Guideline

Survival Round

The participants are split into small groups of 3 – 5 bladers. They all launch into one stadium at the same time to bey battle. The last beyblade spinning enough to claim a victory earns their blader 1 Win. Repeat these royale style battles until one blader has 2 wins. Depending on the overall tournament, that blader advances thus earning the bye and all the others bladers battle out a round normally or are completely eliminated from the tournament.
